Dear Hiring Manager,

I am excited to apply for the Full Stack Engineer position at Atlassian. With 1.5+ years of experience in building scalable web applications using React, and Node.js, I am eager to bring my expertise in full-stack development, API optimization, and Agile methodologies to your team.

In my current role at RedBus, I have:

Developed features for the RedBus WhatsApp funnel, leading to 50+ additional ticket bookings daily.

Designed and implemented a comprehensive reports dashboard that enabled year-long statistical tracking, using API workers to optimize high-volume requests, ensuring a seamless user experience.

Improved search filters with React & Redux, increasing filter usage by 33% and enhancing UI/UX.

Worked in an Agile development environment, actively participating in sprint planning, stand-ups, and code reviews to drive product improvements.

I am particularly excited about this opportunity because it aligns with my passion for building robust, user-friendly applications while leveraging modern technologies. I am eager to contribute to Atlassian's mission by developing scalable and efficient solutions that drive business growth.

I would welcome the opportunity to discuss how my skills and experience can benefit your team.

Thank you for your time and consideration.

I look forward to your response!

Best regards,
Sonam Sharma
